- 40mm Non walkable ceiling
- 50mm walk on ceiling
- 80mm high load ceiling
- Grid ceiling, available as standard
- Hidden ceiling hanger system
- Custom made to order

TAILORED SOLUTIONS

ENGINEERED FOR YOUR PROJECT

MEETS ALL ISO 14644 CLASSES

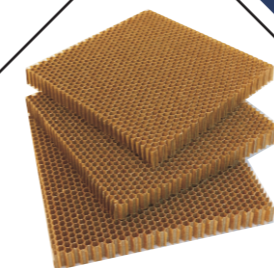

State of the art cleanroom components

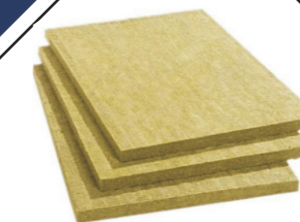

Accessories include:

- A range of doors including flush doors and emergency doors
- Flush and clamp frame windows
- Coving
- Conduit panels
- Preformed corners
- Air returns
- Constant research and development into new cleanroom components and technologies
- All components and apertures are pre-cut and delivered to site ready for installation

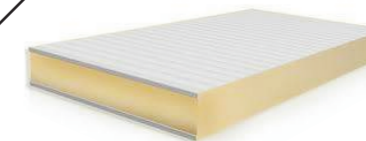

INFILL

Honey Comb Kraft

Rock Wool/Mineral Wool

PUF(Polyurethane Foam)

We can offer exclusive components and panels to provide completely flush, high end and aesthetically pleasing cleanroom builds.

All components are tailored to each project, manufactured to order, with pre-cut apertures and delivered to site ready for install. No on-site cutting is required saving time, money and which allows for clean and efficient installation.

Clean Room Equipments

Pass box

We supply Static and Dynamic pass boxes meeting the customer specific requirements and to the highest standards.

Passbox is designed to allow material transfer without much personnel movement. It also aids controlling ingress of particulate contaminants into clean rooms & between different classified areas.

Laminar Flows

We supply Vertical and horizontal laminar air flow for offering highest product protection for samples and processes by providing ISO Class 5 particle free work area. The laminarity of the flow prevents cross contamination between the items handled in the working space.

Dispensing Booth

We provide patrons with the superior quality of Dispensing Booth. Appreciated for its compact design, easy installation and high performance, the dispensing booth is fabricated by using latest machinery, Used for filling, refilling, weighing and sampling, the laboratory dispensing booth is used in various scientific laboratories.

Features :- Easy installation and compact design / Enhanced functional life / Low maintenance and sturdy construction

Operation Theater

We are a trusted name in the organization for Design and supplying Modular Operation Theater. The offered operation theater is designed by expert professionals and is in tune with the industry standards. It is equipped with latest amenities and ensures hassle-free operations. Being well-lighted, properly ventilated and requiring easy sterilization, this operation theater is in high demand.

Features:

- Latest design
- Proper illumination
- Capacious

Specifications:

- AHU / HVAC System
- Material: Pelamin MS Powder coated, SS 304
- Width: Capsules Perforated 3 mm
- Pelamin with Central OT Arrangement /
- Pelamin without Central OT Arrangement
- Light: IP 54 Bottom Open-able PSL 2/36 Max
